

# Hybrid AF™ Convergent Therapy

The Hybrid AF Convergent Therapy is a minimally invasive cardiac ablation that combines the expertise of cardiac surgeons and electrophysiologists.

## Professional Education Program Overview

### PROGRAM OFFERINGS

#### PEER-TO-PEER DISCUSSIONS WITH PHYSICIAN FACULTY

- Connect with Hybrid AF Convergent Clinic HCP (physicians, service line administrators, OR staff, EP lab staff) virtually to discuss clinical questions and initial experiences.

#### CASE OBSERVATION

- Visit a Hybrid AF Convergent Therapy program to observe experienced EPs and CT surgeons collaborate in a live surgical case.

#### BEATING HEART HANDS-ON TRAINING

- Join a comprehensive, hands-on experience performing the Hybrid AF Convergent Therapy Approach safely and effectively.
  - **Cadaver Lab:** Attend a European-based training lab for a comprehensive hands-on experience.

#### HOSPITAL STAFF TRAINING

- This training for nursing units, which covers the entire perioperative patient continuum, helps prepare for the program start.

#### PROCTOR SUPPORT

- A physician or clinical education specialist provides in-person guidance for your hospital's Hybrid AF Convergent Program.  
Please contact your AtriCure representative three weeks prior to the scheduled case so an appropriate proctor can be assigned.

#### ON-DEMAND DIGITAL TOPICS

- The European education portal AFConnect.eu offers on demand digital topics.

#### COMPREHENSIVE, ONGOING PROGRAM SUPPORT

- AtriCure encourages continued program support by scheduling collaborative peer-to-peer meetings with your Hybrid AF Convergent team to review initial case experiences. (Meetings are designed for physicians, service line administrators, and/or EP lab staff.)
- AtriCure's experienced clinical education team is available to support physicians and staff with in-service trainings, practice runs before the first case, and further case support.
- AtriCure provides a toolbox of training materials such as a physician training guide, hospital staff in-service guide, animations, live surgical videos, and a simulator hands-on training model.
